

# SixFifty & RIVN

## A Privacy by Design with Consumer Deletion Capabilities

### Partnership Overview

SixFifty & RIVN believe in a world where compliance to privacy laws can be easy. The complimentary companies are focused on creating technology to enable organizations to stay compliant with the ever-changing landscape of privacy regulation. Users of SixFifty and RIVN can quickly generate CCPA and GDPR legal documentation, create a request portal and automate consumer requests, train employees on privacy law, and map their data. Once the joint solution is in place, users can track compliance and generate reporting for an audit. These solutions enable large and small organizations alike to quickly scale their privacy practice to ensure compliance in any state.

### Better Together

#### Privacy Legal Framework

CCPA and GDPR legal documents created automatically, and updated regularly, to adapt to the changing legal privacy landscape.

#### Consumer request automation and Visitor Deletion:

Turn-key request portal with Automated data subject deletion requests based on prebuilt API's.

#### Reporting with Analysis:

Build customer reports and offer insights & analysis based on customer requests.

### About RIVN [www.rivn.com](http://www.rivn.com)

RIVN was created to help companies meet compliance standards for regulations such as GDPR and CCPA with respect to consumer deletion functionality. RIVN's API based functionality along with consulting services is the perfect combination to make sure companies large and small can protect themselves from financial penalties. RIVN was purpose built to fill a massive void in the market specifically managing the deletion process required by new and existing regulations such as GDPR and CCPA. Organizations across verticals and geographic locations are all facing the same challenge of consumer deletion request and RIVN is helping solve that problem today!.

### About SixFifty [www.sixfifty.com](http://www.sixfifty.com)

SixFifty is the Salt Lake City-based software subsidiary of the law firm Wilson Sonsini (<https://www.wsgr.com>). The company is made up of lawyers and technologists who are developing automated tools designed to make complex legal processes efficient and affordable. Their first products revolve around privacy compliance (GDPR, CCPA), where they have developed a robust system that generates necessary legal documents (written by the world's top privacy attorneys), a turnkey request portal, CCPA & GDPR training modules, and a data mapping tool.
